

Israel

Prime Minister

The heart is to the body as the Prime Minister is to Israel because the Prime Minister has power just as the heart has power over the body.

President

The Atrium is to the body as the President is to Israel because the Atrium also works with the blood to help the body but is a lower level just like the president in Israel.

role of the Citizens

The Valves are to the body as the citizens are to Israel because the valves help the blood from going back words like the citizens help Israel from going back.

Legislative Branch

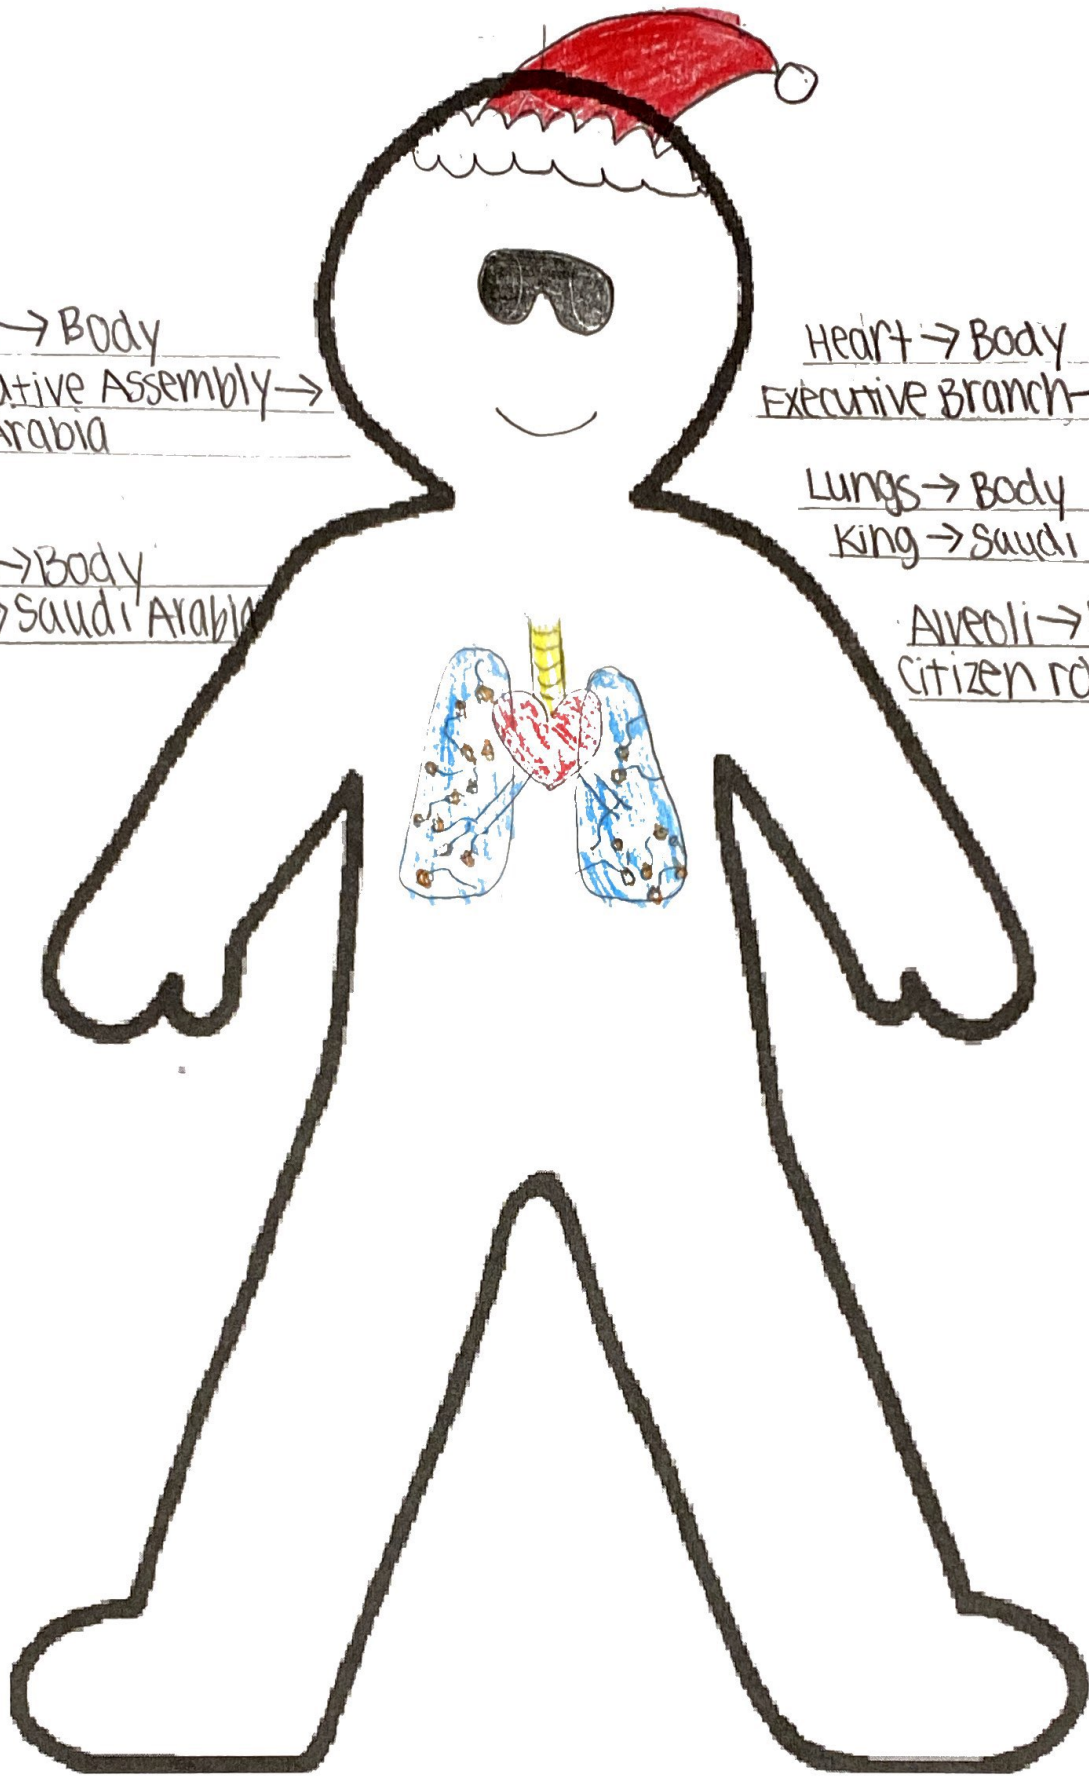

The capillary is to the body as the legislative branch is to Israel because the legislative passes laws and the capillary lets gases go through like denieng or approving laws

Executive Branch

The white blood cell is to the body as the executive branch is to Israel because the white blood cells help fight against things just like the people who old

SAUDI ARABIA

Bronchi → Body
consultative Assembly → Saudi Arabia

Heart → Body
Executive Branch → Saudi Arabia

Lungs → Body
King → Saudi Arabia

Trachea → Body
Islam → Saudi Arabia

Alveoli → Body
Citizen role → Saudi Arabia

Heart - The executive branch makes everything happens how the heart helps things
Lungs - The king controls most of the things and the lungs there the main part of the respiratory system
Aveoli → The citizen don't do much to help the government and the Aveoli dosen't do much compared to other organs
Bronchi → The consultative Assembly's only for show and the bronchi dos only connects things
Trachea → The religion of Saudi Arabia connects ^{the} king to the citizen. like how the trachea connect → the heart, lungs and Bronchi.

The mouth is to the body like the people are are to the government they vote for both branches

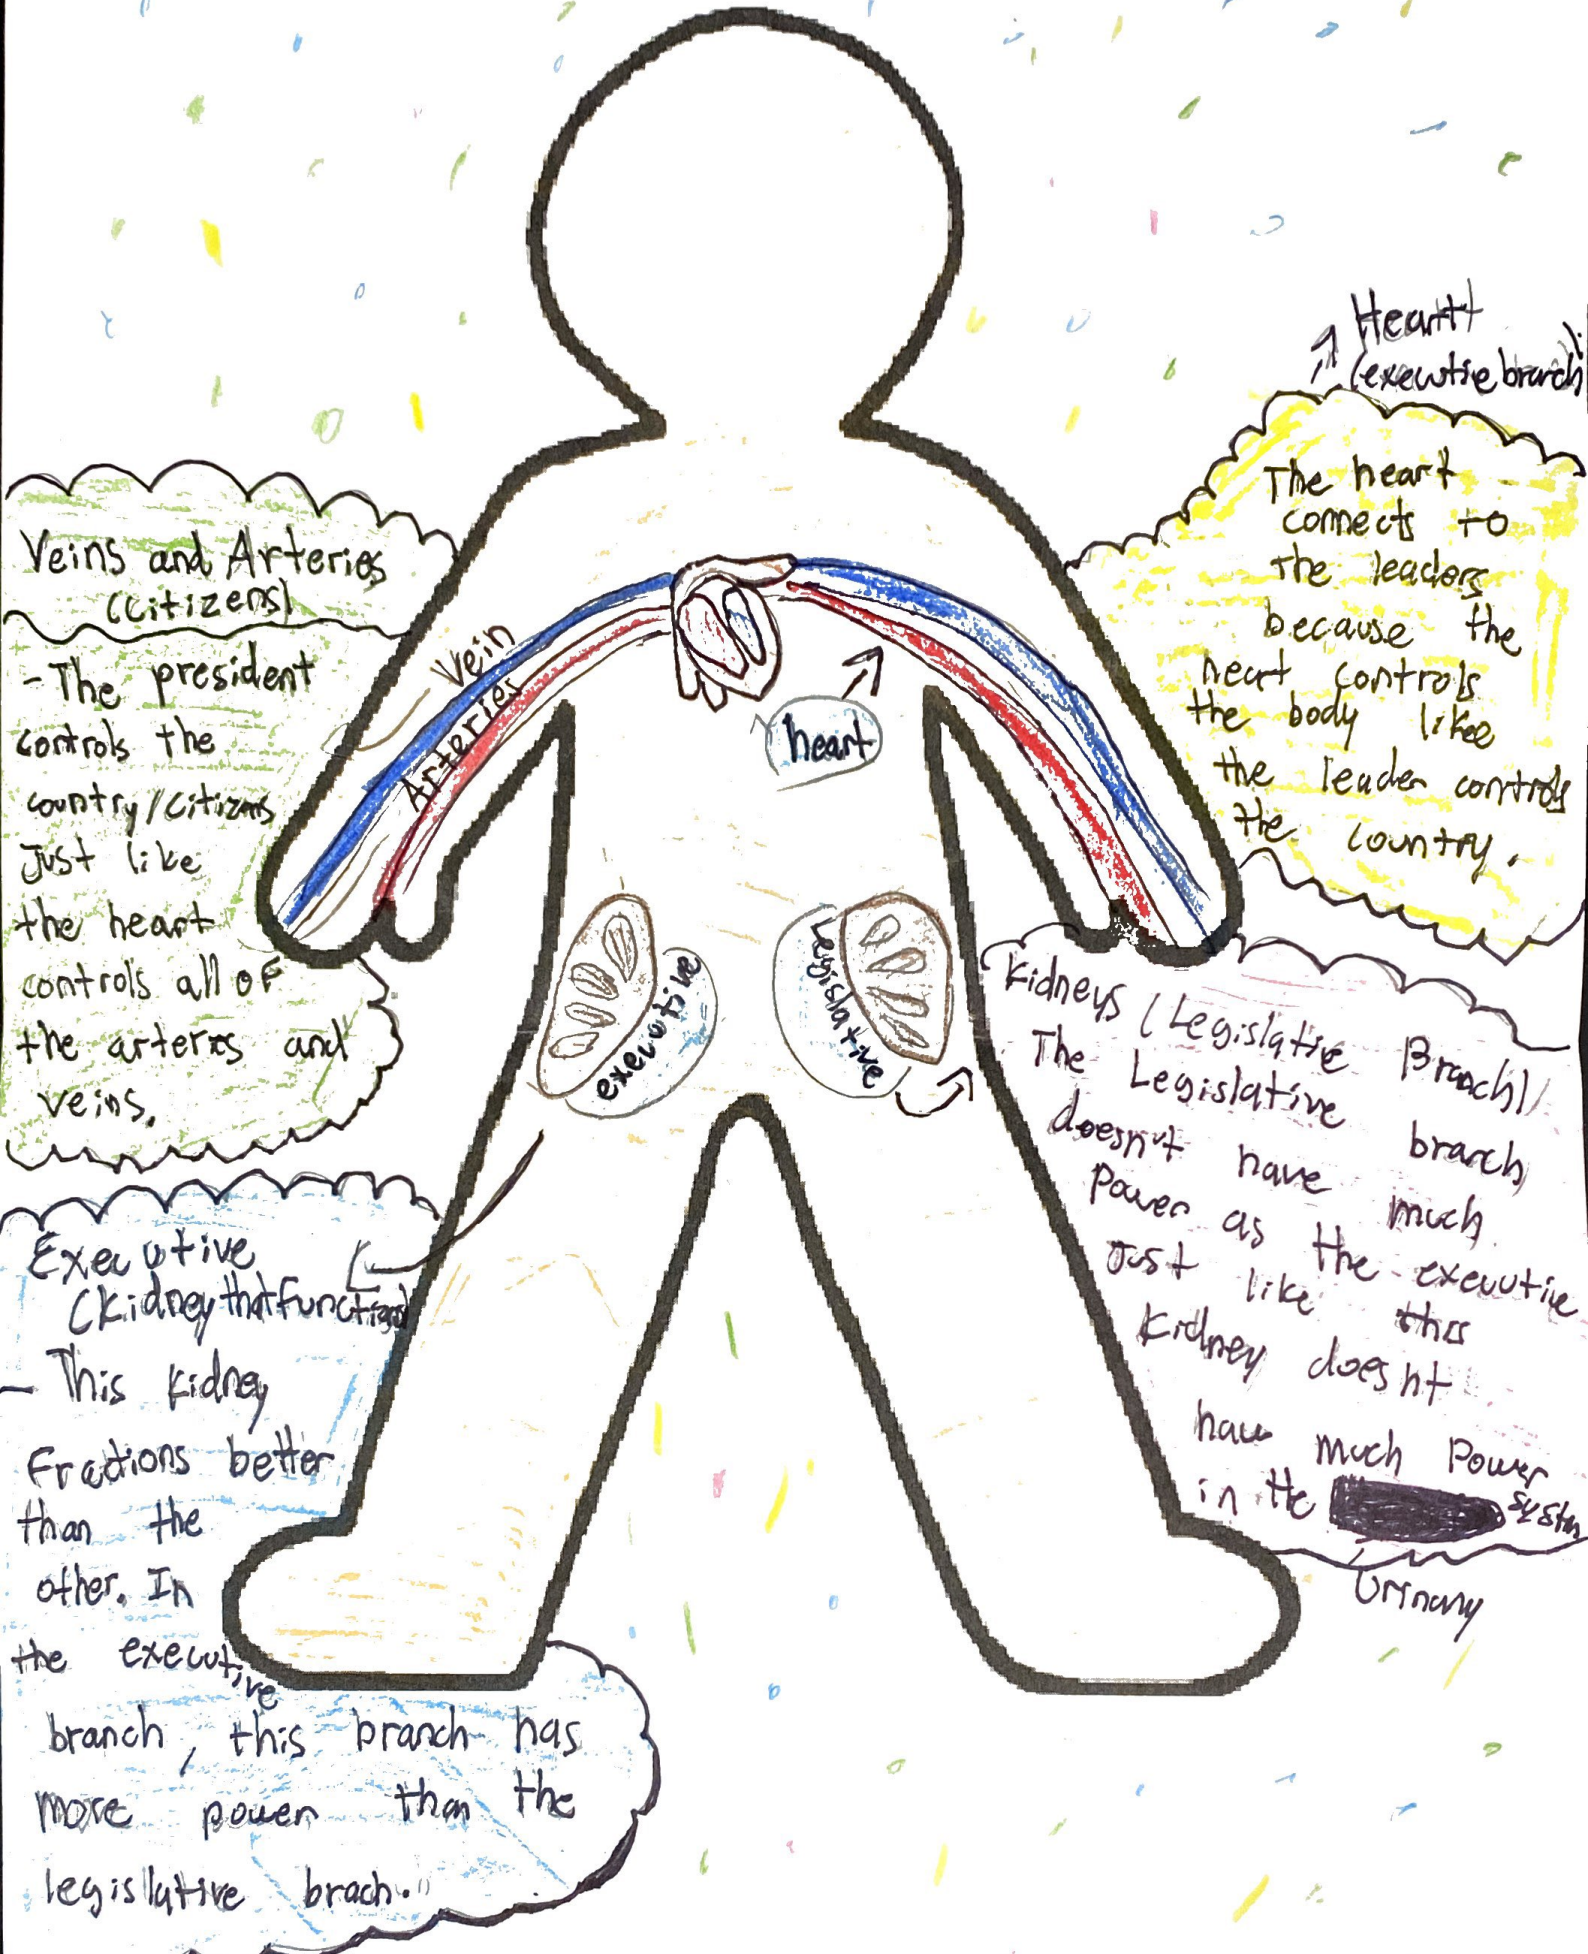

The heart is to the body like the president is to the country because they hold alot of the power.

The lungs are to the body like the legislative branch is to the country because it holds a small amount of power.

Traehna - Executive branch; They make all the laws and connects everything together.

The blood is to the kidney as the citizens are to the government & they send votes to vote on the kneset (kidney) then the kneset eventually to the new prime minister

The nephrons are to the body as the prime minister is to their people because they "filter" ideas to make decisions (leader and executive branch)

The ureters are to the body as the president is to the people because they convey public messages (leader)

The kidney is to the body as the kneset is to the government because they direct who is chosen as leader and send information (legislative branch)
